Trivia App

Combine with another app to provide a niche?

- Trivia creator
- Duolingo
- Tinder
- Finch

Video game

- ↳ Incorporate meta progression
- ↳ Multiplayer
- ↳ RPG trivia adventure
- ↳ Tabletop trivia host

Game questions

- Category
- Difficulty
- Number of questions

Open Trivia DB

Ecological angle

- ↳ encourage critical thinking
- ↳ demonstrating importance of fact-checking AI

MCV model

Model: Player DB, question DB
Controller: GameSession
View: JavaFX UI view + bootstrap

Food Waste App

Features
- Recipe generator
- Expiration reminder/tracker
- Smart grocery suggest

Purpose
- Easily justified by dozens of credible scientific studies
- Environmental angle provides a motivated, important utility

Easy AI /API usage:
- LLM agent routing
- Visual machine analysis

Integration with smart home /personal devices
- Fridges
- Smartphones
- Home camera systems
- Cooking devices/equipment

Ability to expand on and take aspects from existing apps
- Calorie tracking apps (Cronometer, MacroFactor)
- FoodSwith healthy alternatives
- Samsung Food

Music Speaker UI Visualiser

Java libraries/API

- java.sound
- javaFX

Connectivities

↳ Microphone
↳ Desktop sound
↳ Targeted app sound

Application Extensions

↳ Create particle shows from music/sound input
↳ Control pitch/speed with visualiser interactables
↳ Dynamic patterns based on genre, tempo or even AI dictation

Could integrate with AI in similar ways Spotify does:

- Prompted playlists
- Play history analysis
- AI-driven visualisation
- AI DJ

Use for dynamic lyric videos/stand ins on platforms like Youtube or Spotify when music videos aren't available
